Caps and rates are current as of the date shown and are subject to change at any time. Interest rates for indexed strategies are determined, in part, by the change in the applicable index or unit value, are limited by the applicable cap or participation rate, but will never be lower than 0%. Indexed interest, if any, is credited at the end of each one-year term. If you allocate money to an indexed strategy, you aren't investing directly in any index or exchange-traded fund, the stocks included in any index, or the securities, commodities or other investments held in the portfolio of any exchange-traded fund. Withdrawals impact contract values. Taxable amounts withdrawn prior to age 59 ½ may be subject to a penalty tax in addition to ordinary income tax. If a waiver rider applies, early withdrawal charges and market value adjustments are waived. Lifetime income payments are based on the account value.
