RMD Election (select only one)

- A. Withdrawal for contract's current year RMD of \$ (net of charges)
- B. Withdrawal for contract's current year RMD (net of charges), as calculated by the Company. *This option is only available if we have a prior year-end value for the contract.*
- C. Automated RMD withdrawals from the annuity contract under the standard method. *Not available for EquiLink or MultiLink products.*

Payment frequency: Monthly Quarterly Semi-annually Annually
Annual payments are required unless payment is made by direct deposit. Annual payments also required for the Legacy Income Option rider. If a payment frequency is not indicated, annual payments will be made.

Start payments effective

If no date is specified or the specified date does not allow time for processing, the start date will be the date we process your request.

Automated RMD withdrawals will be reduced by any withdrawals taken from the annuity contract during the same calendar year. **Your automated RMD withdrawal will be insufficient if a rollover or direct transfer occurs before receiving your full RMD.** You will need to request an additional withdrawal to make up for any shortfall.

Additional Election Considerations (only applies if you selected Option B or C above)

For contracts issued in the current calendar year, you must provide us with the prior 12/31 Fair Market Value. To locate this value, contact your previous provider. If the contract was funded through a partial exchange or partial transfer, provide only that part of the 12/31 Fair Market Value that was sent to us.

Prior 12/31 Fair Market Value: \$

If your spouse is more than 10 years younger than you and the sole beneficiary of the contract, and you would like to take a lesser withdrawal, please provide:

- I want to include last year's RMD with my first RMD payment.

For a contract issued in the current year: If a prior year's RMD is needed, you must take a partial withdrawal for the RMD for both the prior and current year.

Required Minimum Distributions (RMD) Withdrawal Terms and Conditions

Qualification

RMD withdrawals are only available from tax-qualified annuity contracts. Unless you were born on or before 6/30/1949, RMD withdrawals are only available in a year you will be age 72 or older.

For automated withdrawals, the contract must meet the minimum value required for an annuity payout benefit of the account or annuity value. Automated withdrawals are not available for EquiLink or MultiLink products.

Payment Amounts and Terms

Duration of Automated Payments: Unless changed or terminated, automated RMD withdrawals will continue for your life. Automated RMD withdrawals will terminate if the Surrender Value of the contract is reduced to zero.

Automated Program Changes and Termination: The company reserves the right to change or terminate the automated RMD withdrawal program at any time.

Other Contract Withdrawals: A partial withdrawal will reduce the amount of the automated RMD withdrawals to be made later in that year.

Taxes

Whether or not taxes are withheld, you will be liable for payment of all applicable federal and state income taxes on the taxable portion of the distribution. You may also be subject to penalties under the estimated tax rules if your withholding and estimated tax payments, if any, are not adequate.

Effect on Other Annuity Contract Provisions

Charges and Adjustments: Early withdrawal charges (which may also be referred to as surrender charges, premature use charges, and/or contingent deferred sales charges), base contract proportionality adjustments, if any, and market value adjustments, if any, will be waived on an amount equal to the automated RMD withdrawal. These charges and adjustments will not be waived on one-time withdrawals. Proportionality adjustments, if any, under a living benefit rider or death benefit rider will not be waived on automated RMD withdrawals or one-time withdrawals. If the contract is surrendered or an annuity payout benefit begins, any charges and adjustments that were waived for automated RMD withdrawals within the last 12 months will be retroactively applied. A partial withdrawal will reduce the amount of the automated RMD payments to be made later in that year.

Effect on Bonuses: RMD withdrawals may have a negative impact on contracts with a persistency or annuitization bonus. You may want to consider an annuity payout benefit instead.

Effect on Fixed-Indexed Contracts: Any RMD withdrawal from an indexed strategy before the end of the term will not be credited interest for that term.

Contract Minimums: We will waive the minimum withdrawal amount for RMD withdrawals. For automated RMD withdrawals, we will also waive the minimum Surrender Value requirement.
